

VINAY N B

Senior Angular / Frontend Developer | 6+ Years

Tumkur, Karnataka | +91 7483807090 | nbvinay13@gmail.com

PROFESSIONAL SUMMARY

Angular / Frontend Developer with 6+ years of experience building enterprise web applications for banking and fintech clients. Strong hands-on experience with Angular 2–20, TypeScript, JavaScript, Angular Material, RxJS, NgRx, AG Grid, Reactive Forms and REST API integration. Experienced in reusable UI components, data-intensive dashboards, API-driven workflows, authentication and session handling, centralized state management, change requests, UAT/production issue resolution and performance-focused UI enhancements. Experienced integrating Angular applications with Java-based backend services and working across hybrid Angular/ExtJS/Java enterprise applications. Practical backend exposure to Node.js, Express.js, MongoDB and MySQL, with experience translating Figma/Sketch/Miro designs into responsive interfaces and supporting Agile delivery. Familiar with Jasmine-based Angular testing and Vitest concepts; currently learning React.js and Vue.js.

CORE TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, HTML5, CSS3

Frontend & Angular: Angular 2–20, AngularJS, Angular Material, Components, Directives, Services, Routing, Reactive Forms, Reusable UI Components, Lazy Loading

Angular Architecture & APIs: RxJS, NgRx, HTTP/REST APIs, Route Guards, Interceptors, REST API Integration, Authentication & Session Handling

NgRx / State Management: NgRx Store, Actions, Reducers, Selectors, Effects, Observables, Reactive Programming, Asynchronous Data Handling, Centralized State Management

UI / Data: AG Grid, ECharts, NgBootstrap, Bootstrap, Responsive UI, jQuery

Backend / Integration: Node.js, Express.js, Java Backend Integration, REST APIs

Databases: MongoDB, MySQL

Testing / Quality: Jasmine, Functional Testing, Debugging, Defect Fixing, Vitest (Working Knowledge), UAT Support

Cloud / Tools: AWS, GitHub, Jira, SVN, Visual Studio Code, Eclipse, Figma, Cursor, GitHub Copilot

Additional: React.js, Vue.js – Currently Learning

PROFESSIONAL EXPERIENCE

Intellect Design Arena Ltd | Oct 2023 – Present

Consultant (Product Engineer)

Radiiiscard Solutions Pvt Ltd | Apr 2022 – Oct 2023

Software Engineer

Stedrant Technoclinic Pvt Ltd | Mar 2020 – Mar 2022

Software Design Engineer

PROJECT EXPERIENCE

FAB – First Abu Dhabi Bank | Current Project

- Currently involved in implementation of LMS and CS modules, contributing to development and implementation of client requirements and application enhancements.
- Develop and implement client-specific requirements, new functionality and UI enhancements based on business needs.
- Participate in requirement analysis, development, testing, debugging, defect resolution and UAT-related activities.
- Collaborate with team members to deliver application changes and support implementation activities.

Technologies: Angular, TypeScript, JavaScript, RxJS, HTML, CSS, REST APIs, Angular Material

ENBD – Emirates National Bank of Dubai

- Contributed to a digital transformation initiative for a banking web application by developing and integrating multiple modules.
- Revamped UI layout, usability and user flows to improve customer experience and support business approval workflows.
- Built wealth-management dashboards using ECharts, including donut and line charts for portfolio allocation and historical wealth/progress.
- Developed portfolio and recent-transaction widgets, RM advisor views, portfolio screens, session handling and cached API integration.
- Designed multi-step Egypt government tax-payment flows covering account lookup, tax enquiry, payment type, ePay-fee integration, confirmation/review, validation modals and reactive forms.
- Worked with encrypted APIs and optional OTP authentication.

Technologies: Angular, TypeScript, JavaScript, ExtJS, HTML, CSS, Node.js, RxJS, NgBootstrap, AG Grid, REST APIs, Reactive Forms, ECharts

National Bank of Fujairah (NBF)

- Developed new screens and modules from scratch based on business requirements.
- Implemented UI/UX modifications based on client requirements and Figma designs.
- Handled change requests end-to-end from development through validation and approval in lower environments.
- Performed testing, debugging and defect fixing to maintain application stability and reliability.

Technologies: Angular 16, TypeScript, HTML, CSS, Node.js, RxJS, AG Grid, Figma, REST API Integration

ANB – Arab National Bank

- Contributed to Angular-based banking application enhancements and change requests.
- Worked on UI development, functional fixes, debugging and UAT issue resolution.

Technologies: Angular 16, TypeScript, HTML, CSS, RxJS, AG Grid

ADIB – Abu Dhabi Islamic Bank

- Worked on a hybrid enterprise stack combining Angular, ExtJS and Java, contributing to the Angular layer and integrating with existing Java backend services.
- Delivered Angular change requests covering new features, screen updates and customer-facing module enhancements.
- Worked on WPS MOHRE integration supporting salary/workforce data submission, compliance reporting and status tracking.
- Developed and maintained consent-management flows for customer preferences, marketing communications and regulatory consents.
- Collaborated with Java backend and legacy ExtJS teams and supported testing and defect fixes.

Technologies: Angular, TypeScript, ExtJS, Java, HTML, CSS, RxJS, REST/API Integration

Cynergy Bank Online Banking

- Worked on the payment module of an online banking portal.
- Designed screen flows based on Sketch and Miro designs and built reusable UI components.
- Implemented Internal Transfer and Manage Payee functionality within Agile sprints.
- Resolved build issues, UI defects and bugs and supported sprint deliverables.

Technologies: Angular, TypeScript, JavaScript, HTML, CSS, RxJS, REST APIs, Agile

ANZ Bank – Payment Module

- Implemented transaction search and filtering using AngularJS.
- Developed web components for transaction listings, filters and admin-only search interfaces.
- Implemented access-control behavior for restricted transaction searches.

Technologies: AngularJS, HTML5, CSS3, JavaScript

EDUCATION

Bachelor of Engineering – Siddaganga Institute of Technology, Tumkur, Karnataka

Languages: English, Kannada, Hindi
